

# METCAN

New series of polyester buckets for elevators

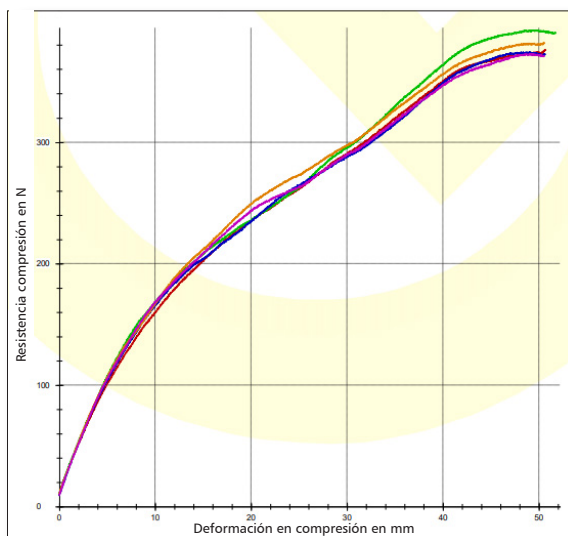

- **Metal Detectable**
- **FDA - EU 10/2011 & EC 1935/2004**
- **Resistant to tear and break**
- **Antistatic** (ASTM D-257-07:  $6 \times 10^{12} \Omega$ )

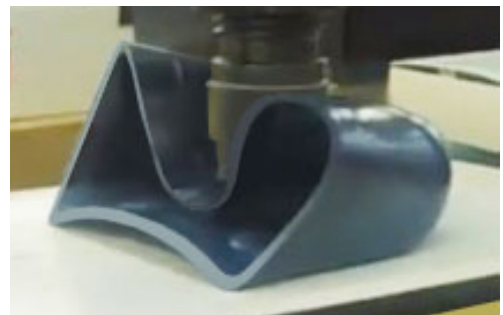

## CHARACTERISTICS:

- Material: Polyester
- Widths: 100, 120, 140, 160, 180, 200, 230, 250 and 300
- Hardness: 60°ShA
- Colour : Blue 07
- **Force at breaking point: 29,9 MPa\*\***
- **Flexible. Nominal deformation at breaking point: 530%\*\***

\*\*Test performed according to UNE-EN ISO 527-2 norm.

Strength/deformation obtained during the compression test of a Type 200 bucket

The effect of compression where the high flexibility of the Metcan bucket can be observed as it returns to its original shape.
