

# Martin SQC2 Secondary (Main) Belt Cleaner

Art. 41605 - SQC2 - Incl. tensioners 35701

The Martin® SQC2 Secondary Belt Cleaner incorporates individually-cushioned tungsten carbide blades for effective conveyor belt cleaning without risk to belt, splice or blade.

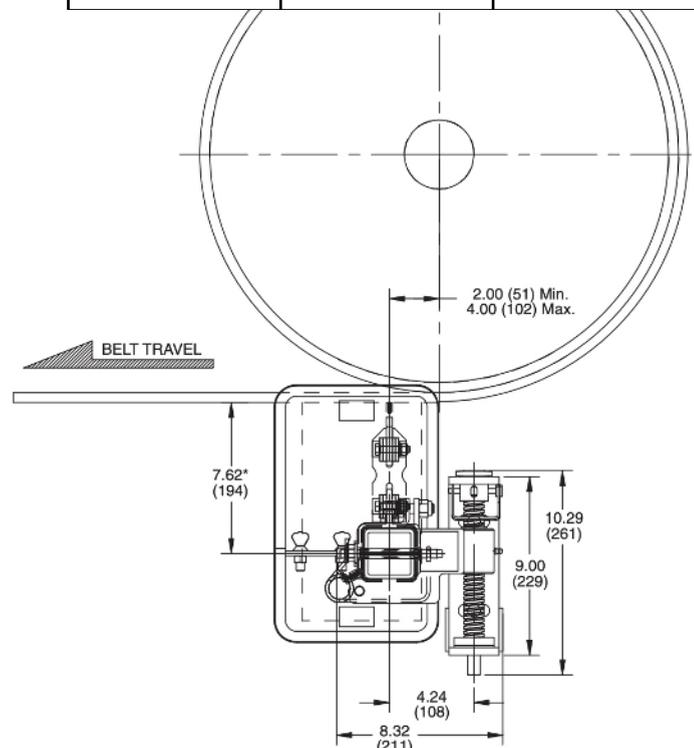

## Features and Benefits :

- Rugged belt cleaner construction withstands punishing applications, like high-speed belts and high-tonnage loads
- Patented rubber buffers maintain cleaning pressure while deflecting to allow splices to pass
- Blade replacement is simple: remove pin, slide out cartridge, service and return
- Compact secondary belt cleaner design allows installation in close quarters; narrow profile resists material buildup
- Rubber buffers allow for reversal of belt direction without damage to belt
- Compatible with reversing belts
- Compatible with mechanical splices/lacing
